

## ⚠ Large waves

🕒 **Urgency:** Expected      ⚠ **Severity:** Moderate  
🎯 **Certainty:** Likely

**Issued:**

Fri 23 May 2025  
11:14

**Effective:**

Fri 23 May 2025  
11:10

**Onset:**

Fri 23 May 2025  
03:00

**Expires:**

Mon 26 May 2025  
11:10

**Area:**

Tana River, Lamu, Kilifi, Mombasa and Kwale.

**Description:**

Wave heights are likely to be more than 2.0 meters over the Kenya coastal waters from Friday, 23rd May 2025 to Sunday, 25th May 2025. They are expected to reduce to below 2.0 meters on Monday, 26th May 2025.

**Instruction:**

Residents in all the mentioned areas are advised to be on the lookout for potential gale and large waves over the Indian Ocean. Large waves may lower visibility and affect marine activities.
